The mechanic charges £35 per hour plus the cost of parts. If the car owner needs 6 hours work and £125 of parts, how much does it cost the car owner? Can you solve it? Repeat using 10 hours and £200. Why is this easier mentally?	<u>Time for time</u> Fill in the missing times: <table><tr><th>Analogue</th><th>24 Hour</th></tr><tr><td>3:50 pm</td><td>15:50</td></tr><tr><td>2:33 pm</td><td></td></tr><tr><td></td><td>17:38</td></tr><tr><td></td><td>03:45</td></tr><tr><td></td><td>00:15</td></tr><tr><td>8:50 am</td><td></td></tr><tr><td>9:25 pm</td><td></td></tr><tr><td>11:45 pm</td><td></td></tr><tr><td></td><td>00:00</td></tr></table>	Analogue	24 Hour	3:50 pm	15:50	2:33 pm			17:38		03:45		00:15	8:50 am		9:25 pm		11:45 pm			00:00	<u>Always, sometimes, never?</u> A number can be divided by 6 if: ✓ <i>the last digit (in the ones) is even</i> and ✓ <i>the sum of all the digits is 3, 6 or 9</i>	<u>Option 1- BBC Bitesize lesson</u> https://www.bbc.co.uk/bitesize/dailylessons Complete today’s bitesize activity for your year group. <u>Option 2</u> 20, 40, 42, 45, 76, 90, 105, 200, 305, 999 Sort these numbers into those that are: a) even b) odd c) divisible by 5 d) divisible by 2 & 5 e) divisible by 6 Are any numbers on their own?	<u>Option 1- BBC Bitesize lesson</u> https://www.bbc.co.uk/bitesize/dailylessons Complete today’s bitesize activity for your year group. <u>Option 2</u> Tick the shapes with a right angle Add lines to finish the other shapes with right angles.

English	<u>Option 1 – BBC Bitesize lesson</u> https://www.bbc.co.uk/bitesize/articles/z4brcat <u>Option 2 – Using brackets</u> Brackets give extra information without altering the sense of a sentence. Example: <i>Practising the piano (an instrument invented in Italy) is something you must do regularly to succeed.</i> Write three sentences with brackets. Write one about milk, one about birds and one about bicycles. Then one of your own.	<u>Teeth</u>  https://www.literacyshed.com/teeth.html Enjoy this silly film. Now write the story of what has happened in this story. Use no dialogue. Just description. <u>Option 2</u> Write a short story about two men in a boat who are fishing. One of them loses something very important to him overboard! What could it be?	<u>Teeth - Playscript</u> Using the silly film, now write a playscript about what happens. You will have to imagine what each man says. This might help. https://www.bbc.co.uk/bitesize/topics/zsn4h39/articles/zx8kng8 <u>Option 2</u> Can you turn yesterday’s story into a short play? Remember that a play only has speaking (and simple stage directions). No need for inverted commas.	<u>Teeth – Alternative ending</u> As it says. What happened in <i>your</i> mind? Did he catch a fish? Did he catch a mysterious object? Did one of them fall out? Both of them? <u>Option 2</u> Write an impossible ending to your original story.	<u>Adrift – Diary</u> Choose one of the old chaps and write their diary entry for this day. Remember that diaries are written in the first person (I, myself, me, my, mine) and tell the events in time order. <u>Option 2</u> Write the diary entry of someone you know/have talked to/seen on tv. Just summarise the main events.
